It was a wild market yesterday in New York and New Orleans. A peculiar feature was the decline in spots in Liverpool, while futures advanced.

At the outset all markets were inclined to be a triffic week. Liverpool was from unchanged to 5-64d down on the first call, but promptly railled and closed at an advance of 5-66d to 7-64d over Tuesday.

New of any character was scarce. Private telegrams were going out from all over Texas telling of the condition of the crop. Locally there was nothing doing and will not be for a few days. The storm at Galveston has interfered with all shipping arrangements. Of soline up, and closed 34 to 41 points higher than Tuesday.

New Orleans futures opened with September to the up 23. October 35 and the other months 45 to 46 points higher than Tuesday.

New Orleans futures opened with September to the price of cotton manufactured goods must be advanced, as there is too wide a difference between the raw and the manufactured products.

New York futures started off tamely, with September off 5 and other months 4 to 6 roints up. Then a report was in circulation that Nell was coming out in the most bull-inh of circulars, placing the yield at 9,750,000. The buyers tumbled over each other on this runner and the wind-up showed September to the up 23. October 35 and the other months 45 to 46 points higher than Tuesday.
